

# Z4 LAT/LON NEWSLETTER

---

Now using  
NAVTEQ  
Data!

June, 2010

Enclosed is the regular June update of the Z4 LAT/LON System. The database is valid until 09/30/2010. Install this update using the usual LODRUN command. The next regular update will be sent to you in July, 2010.

Z4 LAT/LON utilizes data licensed from NAVTEQ.

A complete list of enhancements can be found in the #READ.ME member of source file QSMPLSRC in library LTLNLIB.

## Monthly Updates

Please note that although monthly updates allow you to “skip” a particular update, we strongly encourage you to install every update as promptly as possible.

## Z4 LAT/LON Documentation

We have included the Z4 LAT/LON Reference Manual on the update CD-ROM (Volume 1) and DVD-ROM. It is a PDF document named Z4LLDOC. The documentation can also be printed from the Product Documentation section of our web site at: [www.WorksRight.com](http://www.WorksRight.com).

## Reminder

The CD-ROM's and DVD-ROM's we send to you are your property. You are not required to return any material to us.

Installation instructions are on the back of this page.

## Installation of this update

Before beginning, insure that the Z4 LAT/LON System is not in use. No other special preparations are needed.

To install this Z4 LAT/LON update, do the following:

1. Sign off, then sign on again as any user with \*ALLOBJ special authority.
2. Make sure that QTEMP is in your library list.
3. Type: lodrun dev(device name) then press ENTER.
4. Follow the prompts.
5. If you chose the interactive installation, when the installation ends, the Z4 LAT/LON main menu will be displayed. If you chose the batch installation, when you receive the job completion message, use the STRZ4LL command to display the Z4 LAT/LON main menu.

The version number, **L.10.06**, will be displayed on the upper right side of the menu.

If you have any questions about this installation, contact:
